Size
2.5 Litres 5 Litres, 10 Litres

Coverage
Approximately 12m^2 per litre depending on the nature and porosity of the surface being painted. 2 coats are normally required.

Drying Time
Touch Dry in 1-2 hours.
Recoat after 2-4 hours.

Transport & Storage
To avoid risk of spillage, always store and transport in a secure upright position. Lift with care. Do not use empty container for storing food. Protect from frost.

Thinner
Clean water.

Surface Preparation
All surfaces should be dry, clean and in a suitable condition to be painted free from loose and flaking material. Prime bare surfaces with the appropriate primer. Rub down previously gloss surfaces with waterproof abrasive paper and rinse. Avoid inhalation of dust. Wear suitable face mask if dry sanding.

Application Method
Brush, roller, or spray.
Ensure good ventilation during application and drying. Do not breathe spray. Stir well before use. If more than one can of colour is to be used in the same area intermix before use. Do not apply below 8 degrees centigrade.

Cleaning
Remove as much product as possible from equipment before cleaning. Replace lid firmly. Clean equipment immediately after use with warm soapy water and rinse thoroughly. Dispose content and container in accordance with local, regional, national regulations. Do not empty waste into water courses, streams, ponds etc.

Precautions

- Warning! Hazardous respirable droplets may be formed when sprayed.
- Do not breathe spray or mist. Wear respiratory protection.
- Keep out of reach from children.
- Avoid contact with skin and eyes.
- Do not ingest.
- If medical advice is needed have container or label to hand.
- Please refer to product label & Safety Data Sheet (SDS).
